Tags (Metadata Elements) Metadata has been around since the early days of computing, but the information is scattered and hard to interpret. The researchers in the LOIC Project decided to put some thought into the matter, and created a framework for the organization and extraction of metadata. For the specific case of the LOIC Project, the LOIC Manifest (LOIC Metadata Document) was created. This document provides a file format that includes the metadata from all LOIC Project files. This is an HTML-based file format and you can check it out on their 82157476af
